I am not one accustomed to writing letters to the DOJ. However, I believe it is time that we put the entire Microsoft fiasco behind us. I look at what Microsoft has given us in terms of Operating System, Word Processing, Spreadsheets, Presentation Software, Database, etc. and am amazed of the seamless interfaces between these products. I am tired of special interest groups trying to manipulate government for their own interests. It is time to move on. As a government, with terrorism, recession, etc. facing us, we have much better places to spend our time and money. The only thing this continued case is doing is putting a lot of lawyers to work.
